The problem is: i'm being retaliated against for publicly presenting group issues. While I currently have another grievance addressing the limits placed on my ability to communicate with media and legislators, and petition for legal assistance, this grievance specifies retaliation by addressing the fact I am the only inmate these limits have been placed on. The pattern of retaliation I've documented now spans 11 months.		
This addresses one specific occurrence of retaliation		
I have tried to solve this problem informally by: Presenting the problem to SIO, media, lawmakers, Chad Page, Josh Tewalt, making it 100% public at <a href="http://bookofirving82431.com">bookofirving82431.com</a> and multiple requests through Keebe.		
I suggest the following solution for the problem: Stop retaliating against me for presenting group concerns. Remove the limits from my 6x9 non-stamped envelope purchase. Retrain staff to understand policy
